

ROMAX Compact TT (Twin Turbo) 15–35mm

NEW

The all new ROMAX® Compact TT is smaller (– 8cm) and lighter (– 400g) than its predecessor making it the smallest 18v pressing machine on the market. Powered by the new powerful 18v Li-ion 4ALL battery platform the TT Compact piston can deliver an impressive 19kN/30mm force capable of powering pressing jaws 12–35mm Ø (system dependent).

- QUICK CHANGE JAWS**
Simple to change – secure locking system
- COMPACT**
Twin Cylinder design locates the motor & piston in parallel. Reducing length to 34cm. The smallest machine on the market
- ERGONOMIC**
Single handed operation, soft grip handle
- PERFECT BALANCE**
Centre of gravity in middle of machine reduces fatigue when in use
- SHOULDER STRAP HOOK**
Can be hung from shoulder using optional hanging strap to reduce user fatigue
- LED LIGHT**
Illuminates work space when in use
- SERVICE INDICATOR (2 YEAR)**
Gives visual service warning of 40,000 press cycles
- CFT®**
Constant Force Technology guarantees constant pressing force of 19kN throughout pressing cycle
- eTOOL**
Built in electronic tagging can monitor machine data via downloadable APP
- FAST**
3 Second pressing cycle
- EMERGENCY STOP**
Instant interruption of pressing cycle and piston withdraws to start position
- BATTERY STATUS INDICATOR**
Gives visual warning of battery charge level (will not press if insufficient charge)
- HIGH PERFORMANCE**
18v Li-ion battery platform, 2.0Ah or 4.0Ah available
- Head can be rotated through 270°, ideal for use in confined spaces**

Below is the special subsidised nett pricing for installers of alplex F50 and alplex L.
Note: **Compact TT** will crimp up to 32mm MLCP using compact TT press jaws

For 40mm to 75mm - ROMAX 4000 must be used with FRÄNKISCHE "F" profile jaws.
Romax 4000 will crimp all sizes 12mm to 75mm

Product	Part No.	Size	Product Group	Box Qty
ROMAX Compact TT Set with press jaws TH16-20-26 c/w battery, battery charger and carrying case	ROTH2120	TH 16-20-26mm	£699.00	1

REPLACEMENT BATTERIES & CHARGER

Replacement Battery 2.0Ah (01652)	ROTH1652	2.0Ah	£52.46	1
Replacement Battery 4.0Ah (01653)	ROTH1653	4.0Ah	£80.29	1
RO BC 14/36 Charger UK	ROTH1691		£52.92	1

ROMAX 4000

The all new ROMAX® 4000 is the new generation pressing tool which has quickly established a strong position in the pressfitting market. Powered by the newest interchangeable Li-ion 4ALL 18v battery platform the ROMAX delivers up to 100% more cycles than standard battery technology. A comprehensive range of ROTHENBERGER jaws for all the major press fit system manufacturers is available in sizes 12mm-54mm and larger sizes upto 110mm can be achieved with alternative manufacturers jaws.*

QUICK CHANGE JAWS
Simple to change – secure locking system

SAFETY LOCK
Prevents unintentional opening as 180° rotation is required

SERVICE INDICATOR (2 YEAR)
Gives visual service warning of 40,000 press cycles

LED LIGHT
Illuminates work space when in use

Head can be rotated through 270°, ideal for use in confined spaces

FAST
3 Second pressing cycle

CFT®
Constant Force Technology guarantees constant pressing force of 19kN throughout pressing cycle

HIGH POWER
240 presses per battery charge on 28mm fittings

HIGH PERFORMANCE
18v Li-ion 4All battery platform, 2.0Ah or 4Ah available

LIGHTWEIGHT
Machine weighs only 3.6kg without jaws, up to 0.9kg lighter than competitor's machines

EMERGENCY STOP
Instant interruption of pressing cycle and piston withdraws to start position

BATTERY STATUS INDICATOR
Gives visual warning of battery charge level

Below is the special subsidised nett pricing for installers of alplex F50 and alplex L.
Note: Romax 4000 will crimp 12mm to 75mm MLCP using FRÄNKISCHE "F" profile jaws.
